

AREAS OF EXPERTISE

- Engineering, Procurement, and Construction (EPC)
- Standard of Care
- Project Feasibility
- Independent Engineer / Mergers & Acquisitions
- Pipelines
- Offshore
- Accident / Incident Investigation

INDUSTRIES

- Oil & Gas Production
- Natural Gas and NGLs
- LNG

EDUCATION

- University of Houston
M.B.A, Finance with Honors (1997)
- University of Texas at Austin
M.S, Civil Engineering (1989)
- University of Colorado at Boulder
B.S. with Honors, Civil Engineering (1987)

CERTIFICATIONS

- Licensed Professional Engineer (Civil) in California #47631 and Texas #80777
- Licensed Professional Engineer (Civil) in Louisiana and Colorado (inactive)
- PMI Project Management Professional #2311729

SUMMARY OF EXPERIENCE

Jeffrey Moore provides over 35 years of international operator and consulting experience in the oil and gas production and midstream sectors. He is experienced in capital project planning and delivery, from concept feasibility to final investment decision (FID) and from front-end engineering and design (FEED) to construction, installation, and operations support. He has extensive experience in the planning, design, and construction of fixed, floating, and subsea facilities, midstream and floating LNG, and upstream consulting.

During his career, Jeffrey has worked for both super-majors and independent E&P firms, overseeing brownfield upgrades and EPC contractor delivery of greenfield facilities. For nine years, Jeff led Doris Inc. and Doris Construction Support Services, a topsides and subsea engineering and project management consulting firm. He later formed Field Development Partners LLC, where he provided consulting and staffing/recruiting services, as well as expert witness assistance related to oil and gas production EPC projects. Jeffrey also serves as a Commander in the United States Navy Reserve.

Since joining Baker & O'Brien, Jeffrey has assisted clients with pre-arbitration matters in FPSO construction disputes, arbitrations involving subsea EPC construction, and civil litigation cases involving job-site accidents/incidents. Jeffrey has also advised clients on the commissioning of onshore LNG plants, warranty claims related to gas plant operations, and FPSO fitness-for-service matters.

PREVIOUS POSITIONS

2020–2024: Amni International Petroleum, Inc.

General Manager - Engineering & Projects

2013–Present: Field Development Partners, LLC

President and Founder

2015–2019: Lukoil International Upstream West, Inc.

Senior Facilities Advisor

2004–2013: Doris Inc. & Doris Construction Support Services, LLC

President

1989–2004: Chevron

Facilities Engineering Team Leader

Lead and Senior Facilities Engineer

Project Manager

Projects & Designs Engineer/Lead Structural Engineer/Facilities Engineer
