

EDUCATION

- Mays Business School – Texas A&M University
B.S. Business Administration
(2026)

SUMMARY OF EXPERIENCE

John Kilboy provides analytical and research support to Baker & O'Brien consultants. His work includes data analysis, market research, contract and documentation review, and providing practical solutions to complex analytical requests.

Before joining Baker & O'Brien, John gained experience through internships in energy trading, land acquisition, and distribution operations. His work included analysis of operational and financial information, conducting industry research and data validation, transactional recordkeeping, and support of cross-functional business processes.

John has advanced Excel capabilities and is experienced in structuring and analyzing large datasets. He has experience developing fit-for-purpose analytical tools, evaluating data trends and anomalies, and presenting complex findings in a clear and accessible format.
